

Date 8th September 2009

Dear Shaun,

First of all thank-you so much for the brilliant sessions you and your team ran. I should have e-mailed sooner but keeping Dom occupied took most of my time in the school holidays.

Dom had a great time when he was with you and as a boy with emotional difficulties I feel he learned a good deal about himself and certainly talked more about how he felt about himself after the sessions. This enabled us then to talk about his behaviour and how it affected him self and others.

He did enjoy the sessions and I think he would have benefited from more art based activities, drawing, painting, singing, this kind of thing.

Overall the days he was with you were a great success and Dom really benefited from the time spent with him. Although he came to the 3 Day Club alone he made new friends and felt accepted for who he was.

Thank-you once again and please keep us informed of any further activities.

Regards

Patrice and Dominic
