Sunday 25th March

Re. U Can Shine

As Head Teacher of Wybourn Community Primary School our Year 6 pupils have benefited from the above project under the auspices of Shaun Weatherhead for a number of weeks now.

Although the project is still in its formative stages within our school it is clear that it is reaching the parts of our pupils which other projects cannot reach!

U can Shine aims to enable and empower individual pupils to make their own decisions and find their own voice, thus making it an extremely powerful experience for all concerned and motivating many of our most marginalised pupils very substantially.

It is this personal empowerment which makes the project so different to what schools normally can offer.

In, addition, my role within Sheffield's Children and Young People's Directorate has enabled me to further research the project's impact upon other schools within our city and, without exception, the feedback has been extremely positive.

It is Mr. Weatherhead's personality and infectious and thoughtful approach which glues the project together.

The project is now seeking funding to train further workers, thus enabling as many pupils in as many schools as possible to benefit from this powerful and potentially life-changing project.

Please do not hesitate to contact me should you wish to discuss this project further.

Sincerely

Brian Taylor.
